

Retail Mate – Smart Safe Recycling

Providing security, control, and lower costs

The Retail Mate is a 24/7 self-service recycling solution for busy cash office environments. It minimizes the cost of manual cash handling by automating every function of your cash office, and increases staff efficiency and accountability by enabling a faster, more efficient and secure cashier routine.

FEATURES

- Automated float preparations
- Automated end of day deposits
- Easy reconciliation, reporting, and bank preparation
- Deposited coins are counted, sorted and stored in hoppers ready for the next dispense
- Foreign coins are rejected to minimise coin jams
- Notes can be deposited in bulk thanks to the continuous feed mechanism
- Real-time monitoring of cash levels - better CIT service
- Complete transaction transparency - no cash discrepancies
